**Property  
Highlights:**

Château St. Cloud on La Digue is a boutique heritage hotel set at the foothills of Nid d’Aigle (Eagle’s Nest) Mountain, offering an authentic and tranquil base in the heart of the island’s lush tropical interior. Built originally as a vanilla plantation in the early 19th century and carefully restored, the property retains its historical character and colonial-era charm, making it a distinctive and memorable option for itineraries that value heritage and local culture.

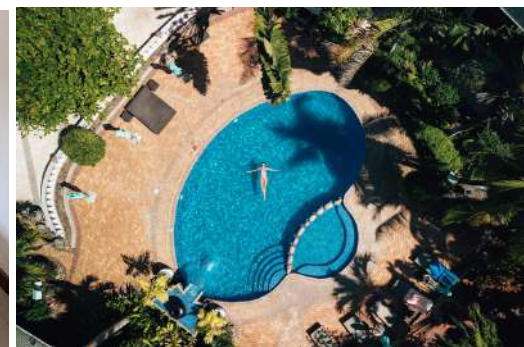

Its quiet, garden-like setting away from the busier beachfront areas provides a peaceful retreat while remaining conveniently located – within a short bicycle ride of iconic beaches such as Anse Source d’Argent and close to the La Passe jetty for inter-island connections. With a mix of spacious rooms in both the original chateau and adjacent garden bungalows, Château St. Cloud appeals to operators and partners seeking quality mid-range accommodation with character, history and easy access to La Digue’s key attractions.
